Navy Department,

Somember 49, 1857.

EALLED PROPOSALS, endorsed "Proposals for steam Machinery for Screw Propeller Bloop-et-War," will be received at this department until 3 o'clock the 18th December next for the compilet construction of the steam machinery and appendages, and placing it on board a screw propoler ship-of-war building in the United States may-yard at Philadelphia. The offers must be for a specific sum for putting the whole in successful operation; must include all patent fees for any arrangements that may be proposed; state the time in which the work will be completed, and be accompanied by the usual guarantee required by law. The name of the catable-hment in which the work is to be executed must be stated.

left with the party whose proposition may be accepted as a concentration, readiness of access for adjustment when in operation, and not being subject to derangement in the working parts; it being the object of the department to obtain the most speed and power with the most second-included and proposed and power with the most second-included and proposed and power with the most speed and power with the most second and proposed and power with the most second and power with the content of the proposed and power with the content of the party of the perfect working of the party of the perfect working and apparent party of hosting, for pumps, apparatus for resultaing, and apparent party of the perfect working of the whole, to be of the most approved kinds. The coal-bunkers, shaft passage, two athwartships iron bulkheads, distilling apparatus for fresh water from which can be made not less than 1,000 galons per day; all the tools and duplicate pieces necessary and satisfactory for an efficient cruising stems ship-of war must be included in the proposition, and a list of them must be farmished.

The wood and carpenter work (except the boring out the deadwood for the shaft) necessary to adapt the vessel for the reception of the machinery, bollers, and appendages, will be provided at the expense of the Navy Department, and it will permit the use of such facilities as it may have for hoisting the heavy machinery on board.

For the accommodation of the entire steam machinery and the fuel, comment, and there will be allowed in the body of the ship the entire space, under the berth deck, commencing at 17% feet abafuthe mainment, and thence extending forwards distance of 56 feet; the greatest breadth inside clear of the plank under the beam being 42% feet, and the height from the top of the timbers, to the under aide of the beam amidalips being 13 feet 9 inches. Within this space it is expected to c

load water line to the top of the keel under the propeller will be 16% feet.

Steam-engine manufacturers who desire to bid can obtain a copy of the section of the vessel upon making application to the department. The proposal must be accompanied by full specifications and general drawings, having the position of the centre of gravity of the machinery, boliers, &c., marked on them; giving also the capacity of the steam cylinders and areas of foot and delivery valves, and of air pump, and outboard delivering valves, space for steam above the water line in boliers, the fire and grate surface; also the diameter, pitch, surface, and kind of propeller, and other principal points, that comparisons can reduly be made. There will also be given the estimate of the weight of engines, boliers, water, bunkers, appendages, tools, and apare work, in tons of 2,240 pounds.

The terms of payment will be that when one fourth of the materials and labor provided for its fibe contract shall have been completed to one fifth part of the whole, amount of the contract; when one-half the work shall in like manner be coinpicted, there will be a further payment of one-fifth; when three fourths the work shall have been completed, and have made a satisfactory trial of one-week, then a further payment of one-fifth; and when the ship shall have performed satisfactority at sea for a period of three mouths, then the remaining sum shall be paid. ormed antistictority, at sea for a period of three mouths, then the re-naining sum shall be paid.

The repairs necessary during this period from defective workman-hip or materials will be at the expense of the contractor.

The proposals must be explicit, and no qualified or conditional offer fill be considered.

[No. 586.]

By the President of the United States pursuance of law, I, JAMES BUCHANAN resident of the United States of America, do hereby de ake known that public sales will be held at the underment these in the State of Missouri, at the periods hereinafter

S. C. Herring & Co.'s Patent Champion Safes. THE subscribers, grateful for past favors, and finding that a discriminating public were bestowing their patronage to that extent that more warerooms were necessary to exhibit all their stock, have enlarged, their depot, by opening an extensive ware and salescrotn on Breadway, at No. 251, corner of Murray street, opposite the City Hall. This enlargement of warehouse room, with the recent extensive unlargement of their factory, will enable the subscribers to keep on than dat all times a larger stock of fire and burgiar-proof safes than any other establishment in the world. Particular attention will be had to constructing safes for private families to match with other furniture, for the security of plate and jewelry.

Will keep on hand and make to order all kinds of money chests, want doors, and bank vanits. Hall's patent powder proof locks for banks or store doors; Jones's patent permutation bank lock; and Crygter's patent letter lock, without key.

UNITED STATES NAVAL CORRY OF INQUIRY.

Weshington, February 26, 1857.

THE judge advocate gives notice, for the information of spattes county before the court under the lat section of the act of January 16, 1857, that they will respectively be advised by the department when their cases shall have been referred to the court; and that it is desirable that in presenting themselves they should come prepared with a flat of such witnesses at they may de sire to have summoned, specifying to which of the respective heads of "fitness for the naval service" mentioned in the act their testitions, is to be applied respectively; and suggesting the delay, if any, which may be required; and in respect of what witnesses.

J. M. CARLISLE, Judge Advocate.

or others wishing loosfer proposals. It is desirable that all the articles be of domestic manufacture.

Deliveries to communey on the 18th day of February next, and one half of the quantity southercod for to be delivered in equal mentity proportions by or before the 36th April, 1838; the remainder within four months from that date, in monthly or greater proportions, as the contractor may find it convenient.

The privilege is reserved by the United Stases of increasing from one-third to one-half the quantity of all the supplies abovementioned by giving the contractor one month's notice of such desired increase. Payments will be made on each delivery, should Congress have made an appropriation to meet them, or as soon thereafter as an appropriation shall be made for that purpose. Ten per cent of the ament of each delivery will be retained until the contract shall be completed, which will be forfeited to the United States in case of defalcation on, the part of the contractor is fulfilling the contract. Bids will be received from manufacturers or require dealers only in the articles proposed to be furnished; and none will be considered in which the manufacturer's nall or dealer's place of business is not specifically set forth.
